

```
def guessNumber(n: int) -> int:
    left, right = 1, n

    while left <= right:
        mid = (left + right) // 2

        if guess(mid) == -1:
            right -= 1
        if guess(mid) == 1:
            left += 1
        else:
            return mid
```
